

TOUT EN BULLES

Appellation: Vin de France VSIG

Location: On the Gramenon hillsides at an altitude of 350 meters in Montbrison Sur Lez

Vineyard: Plot of young Clairette rose and Clairette blanche vines cultivated using biodynamic methods

Yield: 40 hl/ha

Geology: Gramenon is built on siliceous and shell-bearing sandstone, forming a relief in the sandy safre landscape. This sandstone bank corresponds to a molasse formed in a coastal marine environment under the influence of tidal currents around 12 million years ago

Natural vinification: Ancestral method

Bottling: November and secondary fermentation for 8 months

Serving suggestions: Serve well chilled at any time of day
